

Waves.App Miami Water Rides

Our rides providers are licensed registered certified and insured. Most people who live around water they prefer to ride the waves instead of the streets to go places. Waves is platforms allow boat and water's rides owners to register their boat in area offer themselves and their boats as transportation services for people who want get a ride or rent a boat or a water ride to ride the waves.

Riders download our app and use it like they would be using exactly all payments are done via our app.

Wave

How old is download the app register with waves payments are they Uber Benefits.

Riding with Waves have a lot of benefits to everybody involved boat owners get to use their boat for extra income and consumers can have fun while saving time money and pollution. Waves is the alternative of being stuck in traffic jam you could be enjoying your ride and riding the waves and a beautiful sunny day.

Or if you live around the water and you need to take a ride somewhere that is close to water the bus option is Wayne Wade is a new transportation service that is similar to Uber and Lyft what allows individual boat owners to register by Isis register their into our application people can pay rise on boats in the water instead of cars Leo the road. Are people would prefer to take a boat ride to a car road traffic ride all the time given the cost might be higher than Peking car ride but the time will be much less and the ride will be more enjoyable.

Play it's it's for us and we believe, commonly used with local people as well as visitors as tourist.

Local.

80% of the people who live around water's edge and you need to go across today to a friends house or a relatives house instead of driving all the way around the city you can hop on the wave and go across the bay and minutes and compared to half an hour to an hour.

Tourist and as well as business people.

They will also use our services giving tails are on the water in Doc's auto repair and good mix to mix some business with pleasure by taking a boat ride for business purposes.

The first thing you see when you log in the waves is

Waves Rides.!

get a ride.

Boat owners who gives people destination rides.

rent a ride.

Boats rental companies that rent boats they can listen about an hour app As well as boat owners with driver.

Ride a Ride.

Owners list their Boats, jet skis and other water sports rides for rent no driver .

Local residents who live in water front Property seeking rides as well as tourist who wants to get a tide and experience the ocean .

Couples on the special events or groups on parties and celebrations wanna take long rides on the ocean and go to different destinations.

People who want to rent JetSki's and other boats that they are qualified to ride from other individuals so they can feel the fear of the ride in the ocean.User App:

Waves.App
